Summary

Full Stack Developer with 2+ years of experience building and shipping production web and mobile applications. Strong frontend expertise in React, Next.js, and React Native, with backend experience in Node.js and Symfony. Proven ability to own features end-to-end, integrate payment systems, optimize performance, and deliver scalable marketplace and SaaS solutions.

Skills

Languages: JavaScript, TypeScript, PHP, HTML, CSS

Frontend: React, Next.js, React Native, Tailwind CSS, GSAP, Shadcn UI, Material UI

Backend: Node.js, Express.js, Symfony (PHP), REST APIs, Socket.io

Databases: MongoDB, MySQL

DevOps & Tools: Docker, Git, GitHub, Vercel, Netlify, Postman

Integrations: Razorpay, PhonePe, EmailJS, WordPress, Payload CMS

Experience

Full Stack Developer — Oro Media Lab

Feb 2024 – Present

- Led end-to-end development of **COSKO**, a multi-city service marketplace operating across **Bangalore, Hyderabad, Mumbai, Mysore, and Delhi**.
- Built a **React Native partner app** and **Next.js admin dashboard** supporting **15+ partners** and handling **500+ leads per day**.
- Implemented wallet-based payment flows using **Razorpay and PhonePe**, with partners adding approximately **10,000 per week** to their wallets.
- Containerized backend services using **Docker**, ensuring consistent development and deployment environments.
- Improved Google PageSpeed scores from **60 to 96+** by optimizing frontend performance and Core Web Vitals.
- Built performance-safe **GSAP animations** to enhance user experience without degrading load times.
- Collaborated with clients and stakeholders, handled deployments, and mentored junior developers.

Freelance Frontend Developer — QuickFly.ae

Oct 2024 – Nov 2024

- Delivered a production-ready frontend for a logistics platform using **Next.js, TypeScript, and Tailwind CSS**.
- Integrated **EmailJS** for automated lead capture and client communication.

Web Developer — Indegene

Sep 2023 – Feb 2024

- Developed responsive web pages and marketing emailers for enterprise healthcare clients.

Projects & Open Source

OWASP Nest (Open Source)

2025

github.com/OWASP/nest

- Contributed **11 merged pull requests**, adding Jest-based test coverage for **11 core UI components**.
- Improved reliability and regression safety across large UI modules including Algolia-powered search, avatars, and cards.
- Worked with OWASP maintainers through review-driven, CI-gated workflows.

Chatty — Real-Time Chat Application

2024

- Built a full-stack real-time chat application using React, Node.js, Express, MongoDB, and Socket.io.

Education

Bachelor of Computer Applications (BCA) — Presidency College, Bangalore

2020 – 2023
